

Position: LABORER II

NATURE OF WORK

This is manual work of a semi-skilled nature. Work of this class involves performance of manual tasks of a nature requiring some limited skills or special knowledge acquired through work experience. Assignments frequently include the use of standard or specialized hand tools, power operated devices, or other equipment. Assignments also may include the occasional operation of trucks and other automotive or construction equipment incidental to regular duties. Although some assignments may be carried out under general supervision, work usually is performed under the direct supervision of a foreman or journeyman level craftsman who issues general or specific orders depending on the assignment. Work results are checked for adherence to instructions and conformance with established standards.
